Ashirvad Pipes, based in Bengaluru, was the first in the world to design, develop and manufacture column/riser/drop pipes using uPVC. These pipes are being successfully used in erection of submersible borehole pumps. Available in diameter 25 mm to 160 mm, these pipes are the ideal replacement for GI and HDPE pipes, recommended for installations up to 1,200 feet with submersible pumps. Learn more PVC pressure pipe systems, including Duroflo and Ultraflo, offer many advantages when compared to traditional products, namely: • Enhanced hydraulic performance. • Durability and toughness – resistance to handling and installation damage. • Corrosion resistance – greater service life. • Lower mass – ease of handling and installation, particularly suited to labour intensive projects. • Locked-in sealing ring system – no specialist installation skills required. • Savings on installation time. • Manufactured within internationally accepted • Highly recyclable - Waste generated during manufacturing is pulverized and reprocessed. • Savings on transport costs. • Service performance in excess of 50 years. • Unique combination of properties - Toughness - Stiffness - High tensile and hoop strength - Excellent resistance to creep • Energy efficient - PVC pipe production consumes less energy during manufacturing than steel, clay or ductile iron • Predictable long-term behaviour. Learn more Plasson's innovative products revolutionized the way of connecting polyethylene pipes in the 1960's. We started with fittings for agricultural irrigation and later developed solutions for urban water distribution. Nowadays, water delivery systems in many of the world's great cities owe their excellence to Plasson's innovative research and development. Plasson ensures superior designs and products, the widest range of fittings and adaptors and a genuine commitment to quality, delivery and service. Plasson continues to strive for the future environment. By using Plasson products, you help us to invest in our vision of a world where clean, pure water will be everyone's birthright. Learn more Brand Finolex Thickness 1.5 mm Material UPVC Pipe Joint type Sol fit Size/Diameter 15MM Color white Ashirvad Aqualife pipes and fittings are non-toxic, odorless, and tasteless. To play our part in alleviating some of the pain, we at Ashirvad, took a three-pronged approach to reach out to all stakeholders- our people, our partners, and our communities. In a short span of time, Ashirvad set up a robust supply chain for sanitizers, hands-free dispensers, safety kits, and face-shields for our employees and channel partners. Building on the 'Hum Ashirvad' initiative, we took a holistic approach to address all aspects of employee wellbeing through a completely digital platform. Ashirvad Care Team (ACT) consisting of Happiness Champions was formulated to extend post-COVID support to help our employees recover from the pandemic, both physically and mentally. Ltd., is the first Company in the world to develop the technology in 1995 to manufacture column pipes (also called Drop / Riser pipes) using uPVC. Today Ashirvad is the largest manufacturer in the world for this product. These pipes are being used successfully all over the world in over 30 countries to erect submersible borewell pumps up-to depths of 1200 feet.Ashirvad Pipes today is the pioneer, largest manufacturer, and exporter of Column pipes in the world. Ashirvad is also a licensee of The Lubrizol Corporation, a Berkshire Hathaway Company, to manufacture and market CPVC plumbing systems in India. Ashirvad foresees to become a "one-stop-shop" for all plumbing and sanitary products needed by the Indian markets.You can download the Ashirvad UPVC Pipes Brochure in PDF format using the link given below.Ashirvad UPVC Pipes Brochure PDF - PAGE 2REPORT THISIf the purchase / download link of Ashirvad UPVC Pipes Brochure PDF is not working or you feel any other problem with it, please REPORT IT by selecting the appropriate action such as copyright material / promotion content / link is broken etc. If Ashirvad UPVC Pipes Brochure is a copyright material we will not be providing its PDF or any source for downloading at any cost. INDIA'S LEADING PIPE MANUFACTURER Finolex Industries Limited (FIL) is India's largest backward integrated and most trusted manufacturer of PVC-U pipes and fittings for the plumbing-sanitation and agricultural sectors. FIL was established in 1961, making PVC pipes from a plant in Pune, Maharashtra. Today, it has two strategically located plants in Maharashtra, at Ratnagiri and Urse, and a third in Masar, Gujarat. With a distribution network that covers 900 dealers and over 21,000 retail touchpoints, all interconnected through nine branch offices across the country. Offering a wide range of products in various sizes, pressure classes and diameters suitable for diversified applications across the two main categories of Plumbing-Sanitation and Agriculture. Including agricultural pipes and fittings, casing pipes, column pipes, sewerage pipes, SWR pipes and fittings, ASTM pipes and fittings, CPVC pipes, and solvent cement for pipes and fittings across applications. With a focus on creating the strongest, most reliable, and longest-lasting products possible, we have earned the faith of farmers, builders, industrial giants and their next generation - reliably, efficiently, and flawlessly. And we haven't stopped there. Over the last 40 years, our company-wide family has devoted itself to bettering our manufacturing process and product quality through research, innovation, and cutting-edge technology. Upstreaming our value chain to manufacture our own PVC resin. Continuously innovating and evolving to stretch ourselves further and out-perform our own expectations. We have never lost sight of our roots and the need to nurture them by creating opportunities for the lesser privileged in our country. Through educational, social welfare and healthcare initiatives, we strive to elevate these communities above their circumstances to access self-reliance, prosperity, and fulfilment – to enjoy a transformation that is self-sustaining. We want the very same for the environment. Any initiative we undertake to support our environment has to have an eye on the far horizon. Whether it is water conservation and treatment or tree planting, it has to be sustainable. We believe that nurturing our roots, and the earth and water that nourishes them, leads to towering possibilities for the future of our country.
